

European Masters Programme in Software Engineering

Free University of Bozen-Bolzano, Italy (UNIBZ)

University of Oulu, Finland (OY)

Universidad Politécnica de Madrid, Spain (UPM)

Call for Applications

Edition: EMSE 2019/2021

Deadline: 31 July 2019

Application web site: <http://em-se.eu>

Online Application at: <https://emse.gomovein.com>

1. OVERVIEW

EMSE Consortium composed by the Free University of Bozen-Bolzano, Italy (UNIBZ), the University of Oulu, Finland (OY) and the Universidad Politécnica de Madrid, Spain (UPM) offers a two-year (120 ECTS credits) Joint Masters Programme, named European Masters Programme in Software Engineering (**EMSE**).

1.1. DESCRIPTION OF THE PROGRAMME

The EMSE curriculum covers a wide range of topics, such as software process management, verification and validation, software design, requirements engineering and advanced topics including software quality, distributed systems and development, global software development, embedded systems and open source software & agile development.

1.2. STRUCTURE OF THE PROGRAMME

The curriculum consists of modules (divided into foundations and advanced topics in Software Engineering), a mandatory Internship, a Summer School and a Master thesis.

The full structure can be accessed at <http://em-se.eu/index.php/the-programme/>.

The Programme foresees a mobility period in two different Partner Universities of EMSE Consortium. A **mobility track** is one of such mobility period in which the student spends one year in one University (i.e., **first university**) and one year in another University (i.e., **second university**). A **learning path** is a study plan defined on a specific mobility track. The learning paths are accessible at <http://em-se.eu/index.php/study-plan/>.

The Internship and the Master thesis will be carried out during the second year (on the third semester for the Internship). The Master thesis will be jointly supervised and evaluated by two supervisors, one from each University attended by the student (for more information please consult: <http://em-se.eu/index.php/exams-and-thesis/>).

1.3. GRADUATES' PROFILE

Overall, students will gain a solid knowledge to be applied as managers in software companies, IT specialist and/or applied researchers in academia. The Programme prepares students to continue with doctoral studies in Empirical Software Engineering (ESE) as well. The typical profiles of an EMSE graduate include:

- **Software Engineer (SE)** whose duties include work in the areas of user and systems requirements and analysis, software design, development, and maintenance, software process management, and maintenance of information systems, also in non-IT environments;
- **Information Technology (IT) manager** whose duties include the management of information systems of any level of complexity and size; and
- **Researcher in Empirical Software Engineering (ESE)** in public and private research centres or universities whose work comprises the empirical investigation of the quality of software processes and systems of any level of complexity and size.

1.4. LEARNING OUTCOMES

A successful student will be able to:

- Have solid knowledge of theoretical foundations in Software Engineering (SE) and their application in the several informatics domains; have knowledge of techniques and methods of design, development, test, and maintenance of information systems and be able to apply them in different contexts, also not typically IT, where the software technology is anyway crucial;
- Be able to analyse and solve problems in SE of several different levels of complexity with specific focus on empirical investigation; that is, employ the scientific methods of investigation in SE; in particular, understand and use mathematical instruments that support ESE and its practice;
- Have basic knowledge of public, corporate and professional cultures and societies in Europe;
- Have practice in various software applicative sectors in the socio-economic context including the non-IT specific like health, automotive, energy;
- Be able to work in large autonomy also managing projects and infrastructures over different platforms, like cloud, distributed, or mobile systems;
- Have a command of the SE technical knowledge and skills necessary to practice as software developer;
- Have a command of the SE management skills needed to organize and control software project team work;
- Be able to reconcile conflicting project objectives providing reasonable cost and time information;
- Overcome the challenges of global software development and internationalization.

The international dimension of the Masters Course guarantees that students familiarise with different educational methods and multi-culture.

1.5. LANGUAGE

All courses are taught in English. Students are requested to acquire language skills in the local language (e.g., by passing an exam) of each University they will attend on the first and on the second year.

1.6. STARTING TERM

The term starts between August – October depending on the first university internal calendar.

1.7. MASTERS DEGREE AWARDED BY THE PROGRAMME

Upon the successful completion of the curriculum and fulfilment of the Masters course requirements, students will be awarded a double degree, one for each University they have visited. The official names of the awarded degrees are:

- Laurea magistrale in Informatica in Italy, Classe delle Lauree n. LM 18 del D.M. n. 270/2004;
- Master of Science in Information Processing Science in Finland; and
- Máster Universitario en Ingeniería del Software in Spain.

2. ADMISSION

For 2019-2021 there are the following mobility paths:

UPM-UNIBZ

UNIBZ-UPM

UNIBZ-OY

UPM-OY

To be admitted, applicants need to fulfil the **admission criteria**.

2.1. ADMISSION CRITERIA

In order to be admitted, applicants must fulfil the following requirements:

- **Meet the application deadline;**
- **European Citizenship**

- **Indicate the preferred mobility track;**

- **Have excellent academic background:** candidates will be evaluated on the basis of their curriculum vitae, academic grades, professional experience, and letters of recommendation.

- **Have been awarded a BSc in Software Engineering,** Computer Science or Computer Engineering or degrees with equivalent skills in the three areas (Software Engineering, Computer Science or Computer Engineering) by an internationally recognized university-level institution. Applicants who have not completed their first level degree yet, but are expected to graduate before **15 July 2019**, are allowed to apply to the current call for application. However, if selected, to be admitted to the Programme, they will have to provide a copy of the first-level degree certificate before **15 July 2019**.

- **Provide proof of proficiency in English language at level B2.2 (CEFR).**
 - o With one or more of the following internationally recognized certificates, issued no more than 5 years before application deadline date: TOEFL (≥ 567 (paper based), ≥ 227 (computer-based), or ≥ 87 (internet-based)), IELTS (≥ 6.0) or equivalent certificates. For more information regarding "Equivalent certificates", applicants are advised to check at http://em-se.eu/wp-content/uploads/2015/11/English_certificate_conversion.pdf
 - o With University declaration of undergraduate studies in English: applicants who have received a degree from a university-level institution where the official teaching language is English must submit a declaration issued by the same University stating that English is the official language of the respective program of degree at level B2.2 or equivalent.
 - o With country of origin certification: applicants who are citizens and first-degree-holders of the following English speaking countries Antigua & Barbuda, Australia, Bahamas, Barbados, Belize, Canada, Gambia, Ghana, Grenada, Guyana, Republic of Ireland, Jamaica, Kiribati, Liberia, Mauritius, Micronesia, New Zealand, Nigeria, Papua New Guinea, St. Kitts-Nevis, St. Lucia, St. Vincent, Sierra Leone, Solomon Islands, Trinidad & Tobago, Uganda, United Kingdom, United States of America, Zambia or Zimbabwe must submit a document attesting their country of origin.
 - o The consortium may request an assessment of the student's English level during the selection interview.

In order to proof their eligibility for the admission criteria, applicants must submit on line the following digital documents that must be compliant to the originals:

- A copy of the of English proficiency certificate;
- Curriculum Vitae (European format);
- Proof of nationality (copy of passport);
- Proof of place of residence (e.g., residence certificate);
- Certified (translated into English) copy of university diploma;
- Certified (translated into English) copy of Transcript of study Results (subjects taken during their degrees, along with the marks obtained and the number of hours/credits devoted to each subject); and
- Recommendation letters (one compulsory and one optional) with contact reference(s).

Upon admission to the Programme, candidates shall provide copies of their university diplomas and transcript of records duly legalised and apostilled.

2.2. SELECTION CRITERIA

Candidates that fulfil the admission criteria will be ranked according to the following selection criteria:

- Academic records;
- Type of entrance qualification;
- Work experience and professional qualifications;
- Motivation and willingness, curriculum vitae; and
- Recommendation letters and references.

3. PARTICIPATION COSTS (EMSE TUITION FEE)

The participation to the program has a cost that vary according to the university hosting the student as described in the following:

UNIBZ

For the first academic year the participation cost is

Local tuition fee +500 Euro Summer School = 1991 Euro

For the second academic year the participation cost is

Local tuition fee = 1491 Euro

To check the cost for local tuition fee please visit this web site

<https://www.unibz.it/en/applicants/international-applicants/bachelor-and-master-programmes/>

OY

For the first academic year the participation cost is

Local tuition fee +500 Euro Summer School

For the second academic year the participation cost is

Local tuition fee

To check the cost for local tuition fee please visit this web site

<http://www.oulu.fi/university/masters/scholarships>

UPM

For the first academic year the participation cost is

Local tuition fee +500 Euro Summer School +85 Euro local language course

For the second academic year the participation cost is

Local tuition fee + 85 Euro local language course

To check the cost for local tuition fee please visit this web site

<http://emse.fi.upm.es/en/index.php>

The participation costs cover: participating to the summer school (500 Euro), social taxes, cost for one local language course per year and university services according to the local regulations of each university visited (e.g., access to library, computer laboratories, Wi-Fi, Internet, alumni associations, university sport associations).

The participation costs for any further year(s) (third year onwards) is to be paid directly by the student to the Second Hosting Institution. The participation costs for any further year(s) are laid down in accordance with the Internal Regulations of each Full Partner University.

4. RANKING PROCEDURE

A Joint Board consisting of academic/administrative representatives of all Universities will review the candidacies. Applicants that fulfil the admission criteria will be ranked according to the selection criteria. A preliminary ranking list and a reserve list will be defined accordingly. The Joint Board will interview applicants in the preliminary ranking list. Applicants of the preliminary reserve list can be interviewed upon decision of the Joint Board.

After the interviews, applications are ranked

5. HOW TO APPLY

Applicants apply on-line at the EMSE website <https://emse.gomovein.com>.

Applicants are requested to fill out the on-line application and provide the following documents in electronic form:

- A copy of the of English proficiency certificate;
- Curriculum Vitae (European format);
- Proof of nationality (copy of passport);
- Proof of place of residence (e.g., residence certificate);
- Certified (translated into English) copy of university diploma;
- Certified (translated into English) copy of Transcript of study Results (subjects taken during their degrees, along with the marks obtained and the number of hours/credits devoted to each subject);
- Recommendation letters (one compulsory and one optional) and references.

Upon admission to the Programme, candidates shall provide copies of their university diplomas and transcript of records duly legalised and apostilled.

Additional documents may be requested. Unreadable or incomplete documents or late submissions will not be considered.

In the application, applicants must specify the mobility track. Students selected for one type of track cannot later change the two universities of destination. Applicants cannot apply to more than one type of grant or mobility track.

6. HOW TO ENROL

Admitted students will be contacted by the EMSE Project Manager and guided in the enrolment procedure.

To secure the participation, admitted students **must pay 100 Euro (Consortium first instalment) by the confirmation date (see section 8)** at the following bank account:

BANK ACCOUNT

Cassa di Risparmio della Provincia di Bolzano

IBAN: IT67P060451161900000009000

BIC (SWIFT): CRBZIT2B107

Payment reason: EMSE edition/ Full student's name / Consortium First instalment; e.g: EMSE 2016-2018/Mark Zuckerberg/Consortium First Instalment

Payment receipt must be submitted to the EMSE secretariat (emse-secretariat@unibz.it) via e-mail attachment.

Each partner university may additionally request a Partner first instalment at the confirmation date. Admitted students will be contacted by the local representative for this a future requests.

The second instalment for the first year shall be paid only by the self-paying admitted applicants by September 15th 2019.

In case of student's withdrawal, no reimbursement of the participation costs (first instalment or full) will be performed.

No bank expenses can be charged to the EMSE consortium. Within the European Union, a SEPA bank transfer is available.

7. IMPORTANT DATES

- **20th May 2018:** opening of the timeframe for application
- **15th July 2019:** closing of the timeframe for application
- **31st July 2019:** Publication of results on EMSE website.
- **From 31st July to 9th August 2019:** Confirmation of participation Applicants will send by email a confirmation of participation to the EMSE programme and their first instalment bank transfer receipt (Please send it as attachment to the confirmation email. See section 8 for further details on payment). Admitted applicant will be timely informed on when The second instalment of tuition fees (90%) shall be transferred.

8. CONTACTS
